Through:-

Sir,

The Deputy Commissioner, Bangalore District.

With reference to the letter No. 16431 dated 5th February 1930 received from the Superintendent, Bangalore Power and Lighting, in the matter of installing temporary lights at the Park Fair Grounds Office, Cubbon Park (copy of which is enclosed herewith), I have the honour to state that the Electric Department bill for Rs. 2,349-14-0 was placed before the Park Fair Committee on 31st January 1931 and a copy of the resolution passed is submitted herewith for your kind perusal.

I am desired to bring to your kind notice that the charges for lighting are rather heavy. The objects of the Fair were the same as those of the Government Exhibition annually held at Mysore, and was of an Educative value. Further, nearly 3,000 units were consumed by the Board, a large number of units was utilised for purposes of demonstrations, such as heating and cooking appliances and for such other purposes to popularise them and the demonstrators were not charged anything in respect of the same. The Government was kind enough not to charge any amount for the District Board Exhibition held in December 1926. I therefore request you to move the Government again to grant similar concession to the Board, especially in view of the free supply of current for demonstration purposes. It is further submitted that the finances of the Fair have not been such as would permit the payment of
